Select a section title to jump there. On the next page, use “Back to overview” to return.

01 / OBSERVATIONS

Project notes

A useful handoff gives the next person somewhere to begin.

A **Keep the story visible.**

Lead with a clear summary. Use short sections so a busy reader can find the decision that matters.

B **Connect the supporting detail.**

Link to the relevant section or source. Descriptive labels make each destination clear before the reader selects it.

C **Make the next step concrete.**

Give the handoff an owner and a way to respond. Keep the document useful after it leaves the editor.
